

Be our sponsor for the next year!  
<http://robot.kokicraft.com>

SSFS Robotic Club is a newly created organization. However, in last year's robotic competition season, we won the Judge awards in FIRST Tech Challenge

- ROBOT DEVELOPMENT
- EDUCATING COMMUNITY
- WIN AWARDS

We are a group of high students interested in STEAM field. We also help educate young kids in our community!

Sandy Spring Friends School is a progressive, coed, college preparatory Quaker school serving students from age three through 12th Grade, with an optional boarding program in the Upper School. Founded in 1961, SSFS offers a deep and rigorous academic curriculum, character education rooted in universal Quaker principles, and a diverse and international student body that reflects today's global community. SSFS sits on a pastoral 140-acre campus in the heart of Montgomery County, Maryland, midway between Washington D.C. and Baltimore - an ideal setting for intellectual contemplation, athletic training, diverse extracurricular pursuits, outdoor exploration, urban excursion, and personal growth.

# Sandy Spring Friends School

## Steps to Light Up the Eyes:

1. Place the LEDs onto the given position.
2. Paint the gray line on the circuit with the conductive material.
3. Cut the dotted line on the circuit.
4. Fold the flaps inwards over the red line to use as the battery holder.
5. Place a AAA battery between the flaps and the LEDs will be turned on.
6. Turn over the pamphlet and the eyes of the beast should be able to light up.
